Accuracy. Range. Consistency. **Wireless!**

*The sport radar that sets the standard is now wireless*

  
**stalker sport**  
*Unrivaled Radar Technology*

# Accurate. Consistent. Wireless.

*Be in the game without being in the way. The new Stalker Pro II+ adds a new, faster processor and provides wireless connectivity to scoreboards, speed signs, mobile applications, and your own proprietary programs.*

## Consistent Accuracy and Range

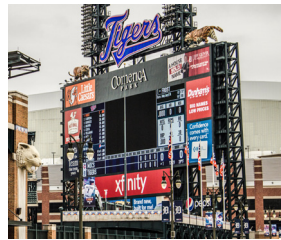

As the unrivaled leader in sports radar technology, Stalker Sport is the gold standard for consistent accuracy and superior range. The performance and durability of the Stalker Pro II+ comes through in all conditions, pitch after pitch, game after game.

## **NOW** - Wireless Connectivity

The power of the Stalker Pro II+ unleashed!

Wireless streaming of velocity readings to stadium scoreboards and LED speed signs bring a new level of technology and excitement to the game.

And, as mobile applications develop, the future of velocity capture and video imaging rests in the palm of your hand.

2 1/2 digit and 3 1/2 digit LED Speed Signs shown with wireless module.  
Part #200-1328-00

# Pro II+

Features and specifications:

- 1-1450 KPH speed range
- Removable, rechargeable high capacity lithium-ion battery handle
- Constant transmit time of over 5 hours per charge
- Measures MPH, km/h, knots, m/s
- 3 active windows; 5-digit status window, Peak speed, and Rolldown speed (across the plate)
- Backlit LCD display and keypad
- User selectable constant transmit, or trigger to transmit on / transmit off
- Includes 120 VAC wall adapter
- Recall previous 10 speeds
- Waterproof to 1 meter of water for up to 30 minutes (IP67)
